About Monitoring Tour

A monitoring tour in Japan is a free or low cost trip to research the demand of visitors and improvements by getting questionnaires or opinions from the participants. The purpose of this monitoring tour is to provide valuable information about what foreign travelers like/do/dislike/have troubles with during the visit to this area, Nishitama. The information is then handed over to the local administrations for future development of the area. By applying for the monitoring tours, you agree to all conditions of participation. Your cooperation for the purposes of the research is mandatory.

Highlights

🌸 River Rafting

Enjoy paddling and floating down the Tamagawa river on a rubber boat. Feel relaxed by hearing the voices of water and trees and enjoy beautiful views of autumn leaves along the river. (Tour A)

🌸 Mt Mitake Hiking

We're going to ride a cable car to get to this mountain. On the top of the mountain, there is a shrine called Musashi-Mitake Jinjya. Interestingly you can see people bringing their cute pets especially dogs as this place enshrines a white wolf known as Oinu-sama (Sacred dog). (Tour A)

🌸 Rokuya Daibutsu

This 12-meters Daibutsu is taller than the Great Buddha of Kamakura and the second tallest Daibutsu in Japan, following the Great Buddha of Nara. The former chief priest planned this project about 40 years ago and current chief priest made it come true. (Tour B)

🌸 Samurai Residence

Ninja is one of the most popular and unique Japanese traditional culture known worldwide. Enjoy getting dressed in Ninja costumes and costumes of princesses in Edo period are also available. (Tour B)
